Business Highlights

| Telecom Business

5G subscribers and portion

Broadband & IPTV subscribers

Telecom-related B2B revenue

- The 5G subscriber growth trend recovered, reaching 17.49 million, while Broadband and IPTV subscribers returned to net additions in Q4
- Aim to strengthen core competitiveness in 2026 through product and channel restructuring and business operation focused on customer lifetime value

- Two-digit growth in AI DC revenue in 2025, driven by higher utilization of Gasan and Yangju DCs and acquisition of Pangyo DC
- Aim to produce meaningful results in AI business in 2026 by focusing on areas we excel
- Plan to create synergies with AI DC business by securing AI DC solution business feasibility and expanding the undersea cable business in a phased manner
